## OVERVIEW

Kodiak strategically enhances client recruitment in construction by prioritizing talent acquisition and maintaining a pool of office, leadership and trade experts for immediate hiring and flexible on-demand support

We are highly selective in hiring our craft employees, understanding their pivotal role in the success of our clients' mission-critical projects. We demand the highest safety, productivity and skill standards, testing for all in our comprehensive vetting process. Our team has extensive expertise from undertaking a wide array of mission-critical projects nationwide, including data centers and highly secure facilities.

Currently, our crafts are engaged in four data center projects: two in Ohio and one each in Nebraska and Texas. Since January 1, 2023, our trades have contributed a significant number of hours on these and other projects –

### KODIAK Trades Total Hours - Jan. 1, 2023 - Oct. 31, 2024

Welder	706,872

**TOTAL 1,827,962**

Kodiak craft employees can be mobilized on demand nationwide. Our team comprises top-tier local and traveler pipefitters, welders electricians, HVAC specialists, and other trades adept in onsite and modular construction.

Choose a staffing partner that understands your business needs and provides craftsmen who match your project specifications. With Kodiak, you can trust that you're working with experts who prioritize your requirements and aim to exceed your expectations.

Let's set up a time to discuss your mission-critical workforce needs:

**Dustin Ide, Director of Sales | 262.613.9935**

"Kodiak service representatives understand the critical nature of our business. They, and their recruiters, mobilize craft professionals who we are proud to have on our data center projects."

Mark P. Dilling Group / President

"The crafts KODIAK mobilizes to our data center projects show up ready to work and with safety top-of-mind. They are our go-to source for proven crafts."

Mike S. / Sheet Metal Project Manager  
Environmental Air Systems

"Kodiak fitters, plumbers, and sheet metal mechanics are experienced on mission critical projects. They are proven professionals who earn their pay from a productivity and work quality perspective. Good people."

James G. / ACI
